

Response to Restriction Requirement

In the Response to the Restriction Requirement, the Applicant originally elects the species of Group I, drawn to Figs. 1-9.

The Examiner also requested that the Applicant list all claims that were readable on the species of Group 1-9. In response thereto, the Applicant submits that Claims 1-13, and Claims 15-21 are all readable on the device of Group 1, shown in Figs. 1-9.

To the extent that Claim 14 is not readable on the species of Group 1, and to the extent that cancellation is required of Claim 14, the Applicant respectfully requests that Claim 14 also be cancelled. However, if any of the generic claims readable on both species are allowed, the Applicant submits that Claim 14 should also be rendered allowable.

Extension of Time

Applicants believe that an extension of time for two months is required for this response, and Applicants hereby request an Extension of Time for this time period or whatever time period is appropriate. A check for the appropriate extension fee is enclosed herewith.

Conclusion

The Applicants believe that their claims patentably distinguish the art of record. Re-examination and re-consideration, culminating in allowance of all claims in the application is therefor respectfully requested. If the Examiner has any questions relating to the instant application, he is respectfully requested to contact the Applicants' attorney, E. Victor Indiano at (317) 822-0033; or by e-mail at Vic@IPLawIndiana.com.

Applicant requests that any required fees needed beyond those submitted with this Response be charged, or any overpayments be credited to the Deposit Account of E. Victor Indiano, **Deposit Account Number 50-1590**.

Respectfully submitted,
Compositech, Inc.
